NEW TESTAMENT**

CROSSWORDS (NTC) is an enthusiastic study of the New Testament books of the Bible in crossword puzzle form. It's all about spending time with God's Word! There are a lot of people in the world who try to promote truth. However, people's ideas of truth should always be compared with the truths of God's Word. To do that, we need to KNOW God's Word. The answers in each puzzle are taken from the New International Version of the New Testament. (Some editions of the NIV version may differ slightly.) Clues that appear in bold print are influenced by a study using the original Greek New Testament text. Scripture clues are often cross references of the James content. This New Testament Crosswords book is a study of the book of James. Each crossword puzzle is designed based on a designated passage and has a correlating fill-in-the-blank puzzle. Each crossword puzzle answer has a place in the fill-in-the-blank puzzle (according to the number of letters in each answer, which is noted below each blank). Through the puzzles, the designated passage of Scripture is completely read and studied, possibly even memorized. The text of James and the crossword puzzle answer key is located at the back of the book for reference. Enjoy spending time in God's Word...let's get started! An exact map of thousands of actual crossword puzzle clues, this book gives answers, not lists of synonyms. It's the perfect help for newcomers to crossword puzzles, for people building word skills, or for anyone stumped by that one obscure clue in a puzzle. Over 179,000 clues and answer words are arranged in a simplified format that makes answers easy to find. Included are many off the beaten path entries and full clue phrases that can't be found in conventional crossword puzzle dictionaries. The author is a lifelong crossword puzzle fan, who has compiled the entries for this book over years of puzzle solving.

But the Greeks, Romans, and other peoples had a kind of word game called the word square that would lead to the invention of the crossword puzzle many years later. A word square is a group of three or more words arranged in a square, so that the words read across the same as they read down. During the 19th century, word squares appeared in newspapers and magazines in England and America. But they were printed in their completed form, not as a puzzle that the reader had to complete. Then in 1913, an editor at a newspaper, the New York World, was constructing a word square for a puzzle page. But he decided to make a puzzle out of it by leaving the words for the readers to fill in. And instead of having the words read down the same as they read across, he let the "across" words form different words when read "down." Called a "word-cross" at first, this was the world's first crossword puzzle. Crossword puzzles caught on quickly in America and England, and by the 1920s, they were in almost every newspaper in this country. Crossword puzzles are now the number-one indoor pastime in the United States, more than 30 million Americans do crossword puzzles regularly!
