The Chicken Qabalah of Rabbi Lamed Ben Clifford Mar 04 2021 A unique and humorous -- and also practical -- approach to the increasingly popular study of Qabalah. This is a seriously funny book! Traditional Qabalistic (or Cabalistic, or, indeed, Kabbalistic -- read this book to find out what the difference is...we know you've always wondered) sources tend to be a bit, er, dry. DuQuette spices up the Qabalah and makes it come alive, restoring the joy of learning the fundamentals of this admittedly arcane system by using simple, amusing anecdotes and metaphors. This account, written psuedepigraphically (fictitiously attributed to a supposed authority), allows DuQuette as Rabbi Lamed Ben Clifford to soar to outrageous heights and, when necessary, stand apart from the silliness to highlight the golden eggs of Qabalistic wisdom nested therein. Sure to be a revelation to those who think that learning about the Qabalah needs to be tedious and serious, DuQuette shows that great truths can be transmitted through the medium of laughter.

The Relentless Pursuit of Tone Sep 10 2021 The Relentless Pursuit of Tone: Timbre in Popular Music assembles a broad spectrum of contemporary perspectives on how "sound" functions in an equally wide array of popular music. Ranging from the twang of country banjos and the sheen of hip-hop strings to the crunch of amplified guitars and the thump of subwoofers on the dance floor, this volume bridges the gap between timbre, our name for the purely acoustic characteristics of sound waves, and tone, an emergent musical construct that straddles the borderline between the perceptual and the political. Essays engage with the entire history of popular music as recorded sound, from the 1930s to the present day, under four large categories. "Genre" asks how sonic signatures define musical identities and publics; "Voice" considers the most naturalized musical instrument, the human voice, as racial and gendered signifier, as property or likeness, and as raw material for algorithmic perfection through software; "Instrument" tells stories of the way some iconic pop music machines-guitars, strings, synthesizers-got (or lost) their distinctive sounds; "Production" then puts it all together, asking structural questions about what happens in a recording studio, what is produced (sonic cartoons? rockist authenticity? empty space?) and what it

all might mean.
